

Speed Wisdom

Speed Wisdom Topics

1. MPO: What is an MPO and how can they help my communities?
2. Unexpected champions: finding local partners in communities with limited resources
3. Elected officials: Navigating relationships with elected officials
4. Policies & plans in small towns: Nothing is online and no one will help me: How to get started when it seems like there isn't a starting place?
5. Understanding your state's landscape: Who else is doing this work? What summary tools are out there? (Bike League state tools, key state people that exist in every state, etc)
6. Data tools: How to use tools like census reporter and Walk Score pedestrian shed mapping with community coalitions and elected officials

Speed Wisdom Topics

7. Safety: How can we better measure safety (objective vs perceived)?
8. Cross-Department integration: How do we better integrate community health and motor vehicles/injury prevention funding, data, and strategies at the local/state level when not connected at the federal level?
9. Community stability: We know people want these investments and benefit from them- but how we can make this equitable so all can enjoy these benefits, and not worry about their rent going up?
